

CHISAGO LAKES

The Chisago Lakes High School is located on the south end of Lindstrom, Minnesota. If you are entering Lindstrom on Highway 8, either from the east or west, turn south at the Dairy Queen on County Road 25 (also listed as Olinda Trail). Coming from the east you would turn left and from the west turn right. The high school is one mile south of Highway 8. You will be entering from the south end of the high school, so travel past the high school and turn right on 292nd Street. Enter the parking lot through the third or fourth driveway on your right.

The entrance being used for the tournament is furthest to the west (or to the left as you enter the parking lots). It will be the large glass doors on the newer section of the high school, which is tan in color, and not the dark brown brick of the rest of the high school on the south end. This section of the high school is just north of the tennis courts.

If you are coming into Lindstrom from the Twin Cities area, take Highway 8 exit off of I-35 just past Forest Lake. Lindstrom is ten miles from this exit on Highway 8.

If you are coming to Lindstrom from the north, take the North Branch exit off of I-35. This is the Highway 95 exit. Turn left and travel through North Branch and take a right on County Road 14 on the east edge of town. Stay on County Road 14 for fourteen miles until you reach the west edge of Lindstrom as County Road 14 stops when it intersects with Highway 8. Take a left and go through town on Highway 8, turning right at the Dairy Queen on County Road 25. Follow the directions in the first paragraph from here.
